

Life Cube, Inc: Shelters / Fast

Rugged off-grid products with a legacy of military design

After developing high-performance shelter products for first responders and the military, we're bringing those features to the Veterans Administration. Simple Logistics: Single Delivery System!

Let's explore the possibilities unfolding from a 5' x 5' box

- Off-grid Office, Communications Stations
- Pandemic Drive-thru Test Stations
- Veteran Stand Downs
- Marketing Events...

The solutions unfold...

Carry
Roll & Inflate
All-Inclusive: 1 Box

Easy. Quick to Assemble. Off-Grid. Multi-Purpose. Built for the:

- Unprecedented need for off-grid solutions. Tactical and agile.
- Global need for shelter – from natural disasters to wars.

“Deployed in 1/2 the time with 1/2 the number of people compared to general purpose tent systems. This represents a 1/4 of the labor costs. Now, time can be spent on the mission, not the set-up. And as a value add, this is the only one with an integrated, hard-surface, raised floor, a feature of our patented ‘shipping container to floor’ technology.”

USAF/ANG Veteran, and Emergency Management Specialist Rick Larson
